SHIBA INTERNET META UNIVERSE

SHIBA IMU

WHITEPAPER

# INTRODUCTION

Shiba IMU will set the basis of Web 3.0 - The Meta Universe.

The aim is to develop the Web 3.0 ecosystem which will be managed and run 100% by its community.

Our founder Yoshi Nakamoto aims to give power back into the hands of internet users. The project is born to facilitate the handover of power back into the hands of the users. It is the ultimate roadmap to internet liberation.

The big tech giants like Google and Facebook are making profits from consumer data without rewarding the consumers. SHIBA IMU will stop this. Shiba IMU will be the king of Web 3.0 and Metaverse.

Shiba IMU will create an ecosystem which will enable development of decentralized applications.

At the heart of the ecosystem will be a search engine where consumers can opt in to sell their search data for a reward. The Shiba IMU token will be used to reward consumers. If the user does not wish to sell their data, then they will have complete privacy of their data in their hands.

Shiba IMU team will also develop technology which will change the web forever. The team intends to develop MetAppear – this device will enable users to appear anywhere in the world from the comfort of their home.

The device will enable you to hologram yourself to:

- Any shop in the world
- Any meeting in the world
- Any party in the world etc
- The use of this technology is endless.

Omnipresence will be possible with this device. This will truly transform the web forever.

This is start of a revolution where consumers will have the ultimate power in their hands.

The development team will allow all holders of Shiba IMU to participate and contribute to the development of the SHIBA IMU ECOSYSTEM regardless of wherever in the world they are. This is a truly universal project which will bring the community together.

The SHIBA IMU will develop ecosystem that will provide protocol for building decentralized application.

There are other big plans for SHIB IMU which we cannot disclose at this stage due to competitive nature of disruptive technology space we indent to dominate in.

# DECENTRALIZATION

We are at a juncture in human civilization which will re-define the way we live our lives. Covid-19 has created a fundamental shift in the way we would like to live our lives.

We are standing at a pivotal moment in time where blockchain innovation will bring about positive changes in our lives.

Until now the power had been centralized. In the centralized system, one will never be allowed to outshine the master. They will be crushed completely if they choose to bring about change via a better technology, idea or product. Governments and large corporates and uber rich individual have power in the centralized system.

The time is perfect to decentralize all our fundamental systems. The political, educational and financial systems. SHIBA IMU will provide the ecosystem to enable development of technology which will change the fabric of our society.

Yoshi Nakamoto's vision is for the projects future direction be 100% community based.

# OUR BACKGROUND

Yoshi Nakamoto is the pseudonym of the founder. Yoshi means Good, Respectful. Nakamoto means Central Origin or the one who lives in the middle. We believe by giving power to our universal community we will be able to tap into our global talent and harness the excellence which a collectively community can achieve.

The goal is to create a universal ecosystem which will benefit all. It will help people realize their future aspirations regardless of where they are today.

As the community grows and ecosystem develops the token price will appreciate.

The token usage will evolve overtime. Current proposed plan for use of token includes the following:

- advertisers will need token to remunerate users in return for their data;
- transfer token universally via SHIBA IMU Wallet and other products;
- developers will need token to develop on the SHIBA IMU ecosystem

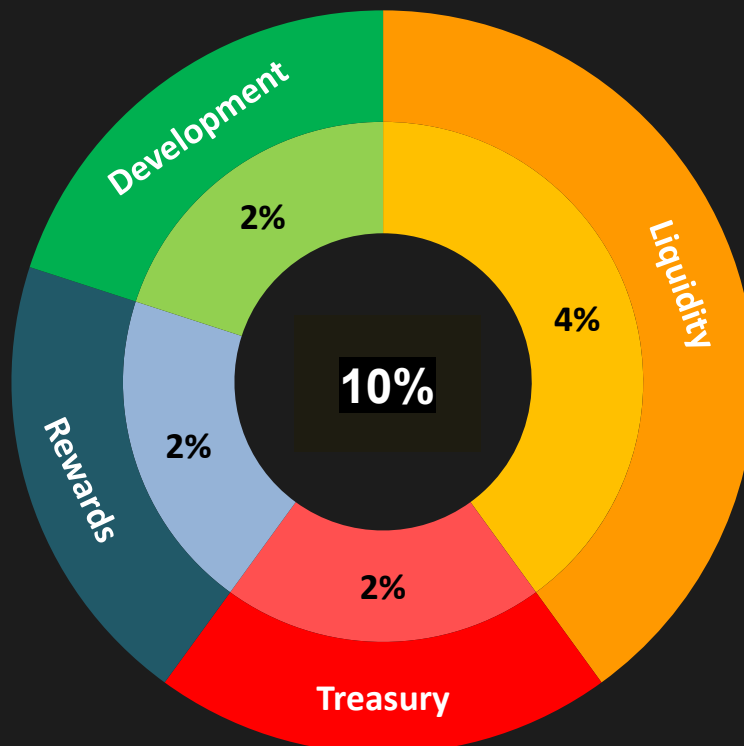

We intend to harness the power of Shiba Army and enhance the web 3.0 experience. Shiba Army has proven the experts are wrong when it comes to the collective power of the community.

It is a humble request of the founder to help your friend and family grow with the SHIBA IMU family. Once you discover SHIBA IMU please share it with at least 3 people who matter to you and ask them to share with 3 people and let the chain continue.

# The Token Mechanics

SHIBA IMU is built with token mechanics that only focus on rewarding the holders and investors. With the technology of frictionless staking increasing their token holding while LP boost will be increasing the floor price of these tokens on each transaction.

- **10%** - Tax on all transactions
- **4%** - Will be added to liquidity
- **2%** - Will be Treasury Fund (For Buy – Back and Burn, Centralized Exchange Listing)
- **2%** - Will be Rewards & Advertising
- **2%** - Will be Dev Fund (To be spent on incentives for the team, we will be burning fuel 24/7)

# ROADMAP

Our roadmap will remain top secret to ensure our continued advantage in this highly competitive space, but releasing a basic overview will allow our holders to understand the intentions of the core development team.

# CONCLUSION

The Shiba Imu community will transform the cryptocurrency universe. It will show the world what could happen with collective community power. A perfect system for the people by the people.

Once Shiba Imu is listed on exchanges its liquidity will be locked so no individual can rug pool. Initial investment will be limited to max 1% of total available token per wallet. This will ensure no one has power to manipulate the market.

Our goal is to grow together as a community.

It's time to write our future together

- Yoshi
